

Foresight Defense Solutions, LLC

Mission-focused software engineering, cloud and DevOps, and intelligence support for government clients.

Washington, DC (HQ) | contact@foresightdefensesolutions.com | foresightdefensesolutions.com

CORE COMPETENCIES

- 1 **Software Engineering:** REST APIs, secure backend services, integrations, and automation testing.
- 2 **Cloud Engineering:** AWS architecture, modernization, and Infrastructure as Code.
- 3 **DevOps:** CI/CD pipelines, containerization, observability, and release automation.
- 4 **Cybersecurity:** Secure-by-design engineering, system hardening, and compliance readiness.
- 5 **Intelligence Analysis:** All-source analysis, analytic workflows, and decision support reporting.
- 6 **Data and Automation:** ETL pipelines, dashboards, scripting, and workflow automation.
- 7 **Technical Consulting:** Requirements translation, technical roadmaps, and stakeholder alignment.

DIFFERENTIATORS

- 1 Operator-informed solutions designed for real-world mission environments.
- 2 Security-first mindset emphasizing least privilege and defense in depth.
- 3 Fast and transparent delivery with tight feedback loops.
- 4 Small business agility with senior-level attention and accountability.
